"Best Facilities You've Never Heard Of"

The quality scale of college baseball is incredibly misunderstood. This is the case in every category. The common fallacy is that college baseball quality of play and resources goes in this order;

Best D1

D2

NAIA

D3

Worst JUCO

When, it's <u>nowhere near</u> as cut and dry as that. A D3 program beat a D1 program this past spring (2022). In the last 10 years, Tampa has had more draft picks than every D1 in the state of Florida other than Miami, Florida, and FSU.

We could go on and on about the quality of baseball that is played all over the country and at all different levels.

Here we would like to show you a small glimpse of (26) college programs that are not perennial top 25 D1 programs. The **facilities**, **resources**, and **rich history** of winning, draft picks, etc. at all of these programs are **incredibly high**.
